

**Group Number:** 4

**Team Members:** Sean Chen, Reagan Lasswell, Manuel Ponce

**Name of Project:** SquadUp Austin

**Dependencies:** Swift 4, Xcode 12.1, Firebase, FirebaseAuth, FirebaseFirestore, MessageKit, Youtube-ios-player-helper

**Preferred Device:** iPhone 11

Feature	Description	Release Planned	Release Actual	Deviations	Percentage of who worked on it
Login	Splash Screen, User login, Create an account, Forgot password	Alpha	Alpha		Manuel 30% Sean 70%
Profile	Profile page, settings, Delete account, Logout	Beta	Beta	Code to update profile picture from the camera was not implemented because i could not get a real device to connect on the lab machine. (final)	Reagan 10% Manuel 90%
Upcoming Games Page	Table View of Games, Custom Cells, Delete and RSVP w/ slide, Navigation to Profile or Create a Game Page	Alpha	Alpha		Reagan 30% Sean 70%
Filter	Filter by game type, Sort by proximity, # of RSVPs, time	Beta	Beta		Reagan 15% Sean 85%
Selected Game Page	Game information, Chat w/ MessageKit UI, RSVP/unRSVP, Add event to Calendar	Beta	Final	Chat moved to Final, required real-time database work. MessageKit UI added	Reagan 35% Sean 65%

Create a Game Page	Game information, Instructional video, Game Creation	Alpha	Alpha		Reagan 30% Sean 70%
UI	Colors, Designs, Buttons, Navigation, Layout	Final	Final	App looks similar to our initial ui design but minor differences because coding it to be identical to a design that may not even be possible on swift code. Also a lack of another teammate to take some work was a big factor.	Reagan 30% Manuel 50% Sean 20%
