Why SquadUp Austin

Finding new people to meet outside of any major at UT is kinda difficult. squadUp allows the opportunity to engage with others in team driven activities that will make sure to get people interacting together.

Target Audience

- Currently we are targeting current UT Austin students.
 - Anybody with a drive to meet new people based currently on playing sports with them.
 - Anybody who is wanting to try a new sport but doesn't necessarily know enough people to get a game going.
-

Features and Frameworks

Create and Join Pickup Games

Chat with other participants

Schedule a game in your calendar

Learn how to play a new sport

Features and Frameworks

Firestore

- FirebaseAuth - authenticating and keeping track of users
- Firestore - cloud storage for pickup games and real-time chat functionality

MessageKit - UI framework for chat

CoreLocation - sorting games by proximity to user

EventKit - allows user to save game to calendar

DEMO

Future Enhancements

- Allow for more sports
 - Expand supported locations with a map
 - Create Teams
 - Create a more social environment among the users
 - Create Tournaments
 - Work with the University Rec to allow reservations through SquadUp Austin
-
